Mercedes House is at the forefront of Manhattan's modern luxury rentals, delivering inspired amenities and convenience with the attention to detail you deserve.

Mercedes House is a breakthrough design by architect Enrique Norten that has recast the New York skyline.

Designed by architect Enrique Norten, the striking geometry of glass and steel of Mercedes House stands out in the heart of Hell's Kitchen offering direct access to New York City's culture, entertainment and fashion worlds on one side and unobstructed views of the Hudson River on the other. Welcome home to the best of all worlds.

Design that inspires

Views that brighten,

Iconic Vision

In his vision, **Norten** created a zigzag footprint and a silhouette of cascading green roof terraces that allow for unobstructed views of Clinton Park and the Hudson River. Its interpretation of twisting glass and steel reveals itself anew from every angle and is immediately recognized as a Hell's Kitchen icon.

BUILDING

RIVER PROMENADE

Situated on West 54th Street, the Forte Select residences have the best of both worlds. In one direction, the Hudson River, and in the other, the hustle and bustle of Hell's Kitchen.

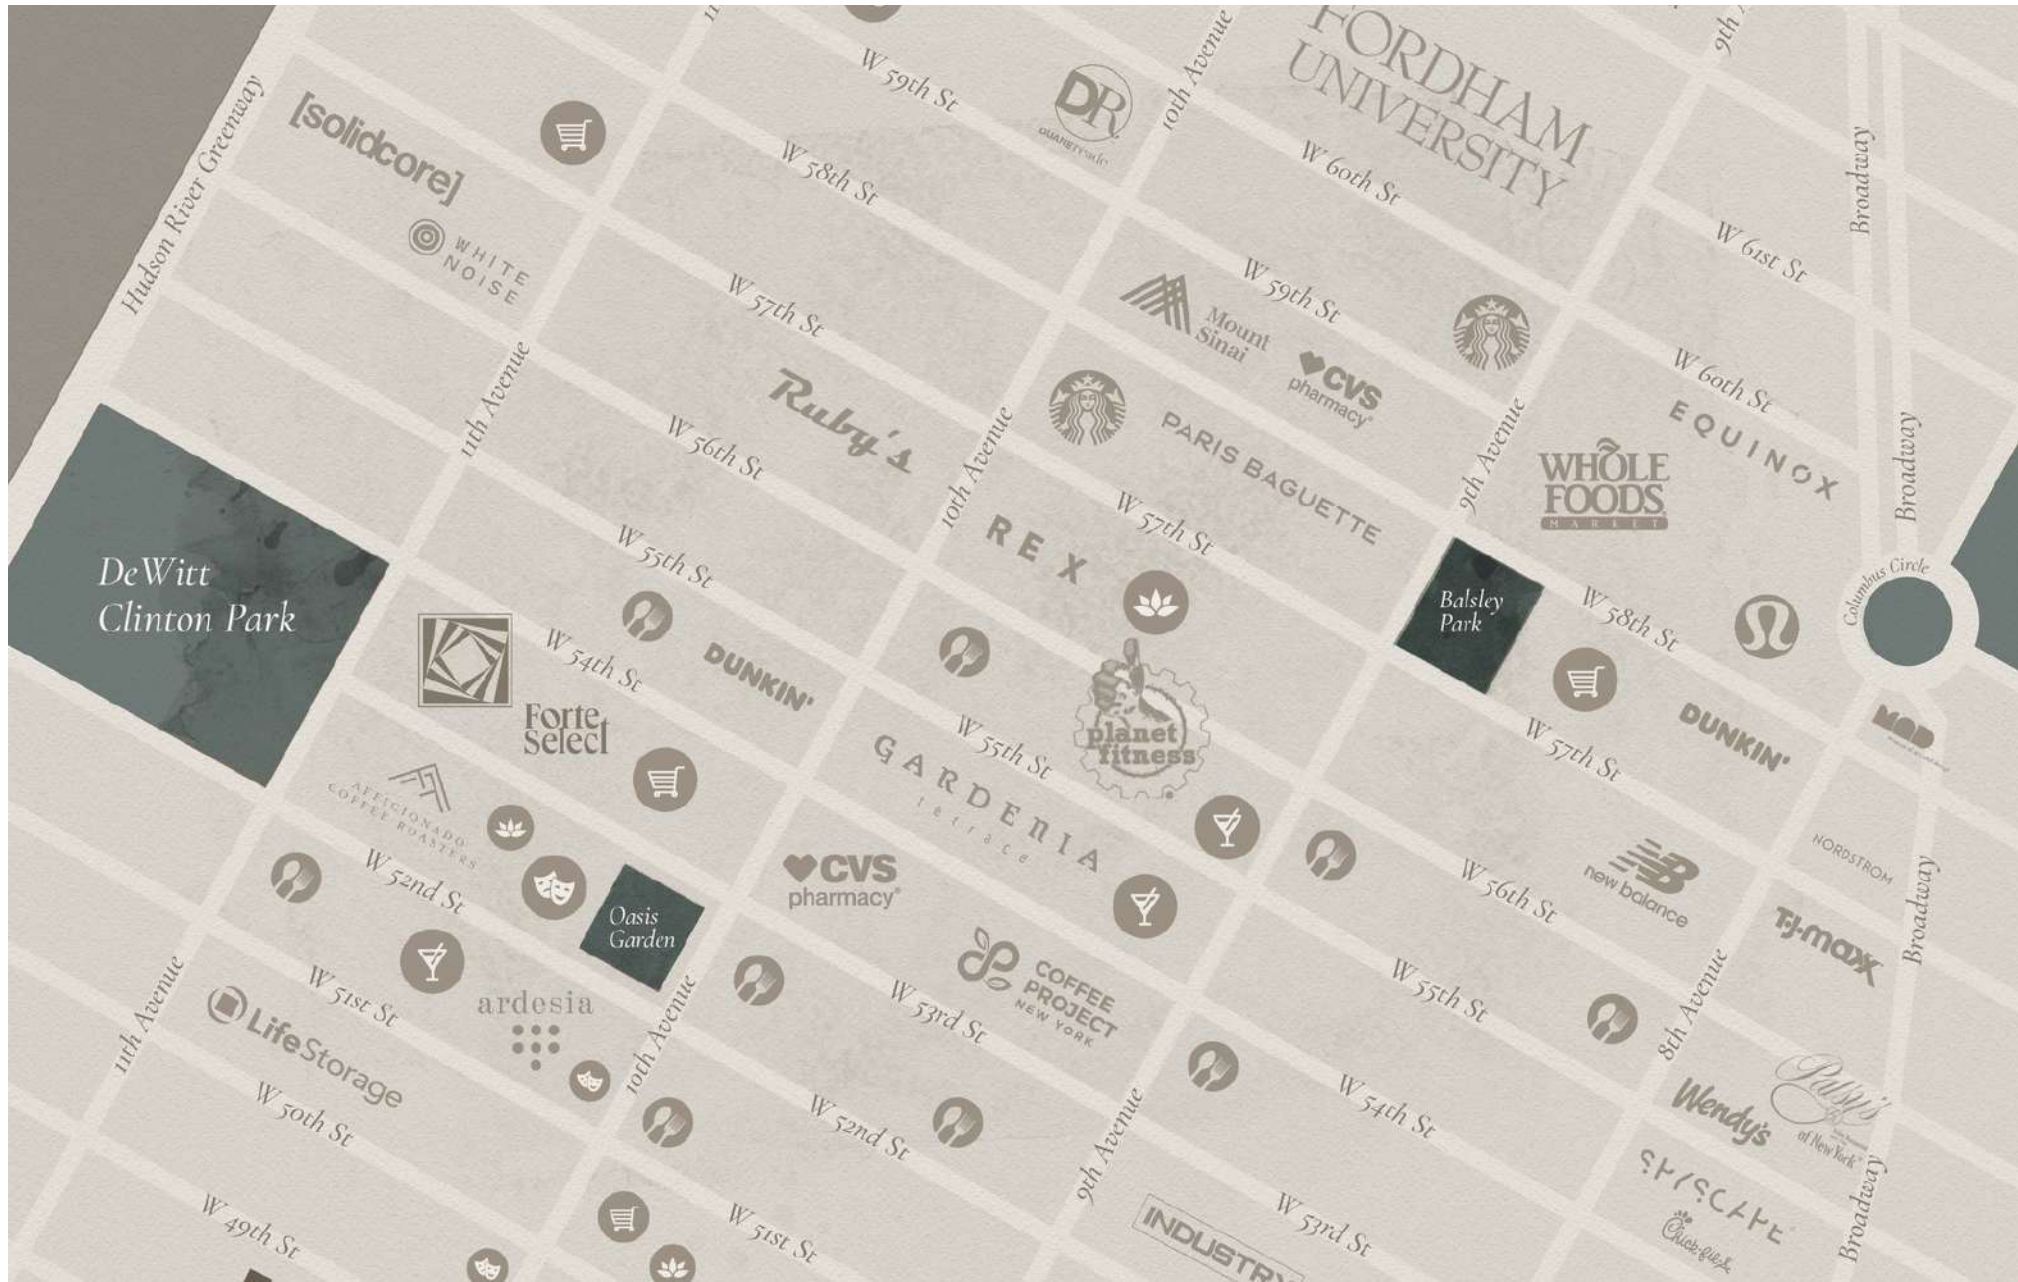

Neighborhood

One of Manhattan's most quickly evolving neighborhoods, **Hell's Kitchen** offers its residents the best of all worlds: eclectic dining and entertainment options, cultural diversity and programming, and the tranquility of open-air parks and head-clearing views of the Hudson River near the bustling energy of Times Square, Columbus Circle, and Midtown Manhattan.
